MEMORANDUM FOR:   
COMIREX/DE&EG/REB

FROM:   
IPC Staff

SUBJECT: COFIR Data Base

REFERENCE: 5 April 1988 Memorandum

1. All of the discrepancies pointed out in the referenced memorandum have been check in our data base III Plus version of the COFIR data base and the hard copy. The results are as follows:

a. COFIRNSQ 42 DIP 1321 (see paragraph 1a of your memorandum) did appear twice in the electronic data base, but only once in the hard copy COFIR.

b. The other DIPS mentioned in paragraph 1.b.c.d. and e. appear only once in the electronic data base and the hard copy in their proper places.

c. Both the electronic data base and the hard copy reflect only the proper values for the COFIRNSQs mentioned in paragraph 2 of your memorandum.

d. Reference paragraph 3 of your memorandum. No such discrepancies were found either in the electronic data base or the hard copy.

e. Paragraph 4 of your memorandum mentions innumerable typographical errors. There are some typographical errors in both the hard copy and in the electronic data base, but they are not as large a number as you apparently encountered.

f. HILMS values for the six DIPS mentioned in paragraph 6 of your memorandum are as follows:

2. After checking all of the discrepancies and making the necessary changes to our electronic data base, we have 2634 records. We ran a check of the hard copy DIPs against those in VM and found the following 4 DIPs missing in the VM version:

<u>NSQ#</u>	<u>DIP#</u>
23	136
25	5078
25	5197
28	575
45	1120

3. It appears that the diskettes I gave you did not contain the latest version of the data base. That is the only reason I can think of to explain the differences discussed above. I apologize for that and do appreciate the work you did to point out the discrepancies in the electronic data base.
